Dealer of Good Quality & Low Priced Farm Tractors

Where Good Service Costs Less

## IRRIGABRAS IRRIGATION REEL C90-350

### FEATURES

High strength structure, heat galvanized and protected in marine – grade aluminum.

With a 4 or 6 speed gearbox, without pulleys or belts, it offers lower power consumption, a faster hose winding speed and more operator safety.

Internal reducer, without interference from impurities present in the hose. It provides greater reading reliability.

Internal Reducer, without interference from impurities present in the hose. Provides greater reliability.

With Easy Rain 3, you can program and control the winding speed of the hose during the entire irrigation cycle.

It allows displacement of the hose in the central position, lateral (on the wheel or intermediate position adapting IT to the need of the crop to be irrigated).

### SPECIFICATION

HOSE REEL IRRIGATION	C 90
PE Hose diameter	90mm
PE Hose maximum length	300m
Flow (min/max)	30 / 54m <sup>3</sup> /h
Inlet pressure (min/max)	5.0 bar / 10.0 bar
System Capacity	34 ha
