IRRIGABRAS REEL IRRIGATIONS

FROM 1,340,547.46 – 1,734,000.00

FEATURES

Manual operation is always available if the computer fails.

The reel can turn 360 degrees

High strength structure, heat galvanized and protected for maximum protection.

With a 4 or 6 speed gearbox, without pulleys or belts, it offers lower power consumption, a faster hose winding speed and more operator safety.

With Easy Rain 3, you can programme and control the winding speed of the hose during the entire irrigation cycle.

It allows adjustment of the hose in the central position, lateral (on the wheel or intermediate position adapting it to the need of the crop to be irrigated).

After sales support of TRACTORCO

SPECIFICATION

EYS MIX-PUMP

FROM PHP 651,668.57*

FEATURES:

- Modular concept for a variety of sizes and options with minimum inventory
- Unique design for easy maintenance
- Abrasion resistant special alloy propeller and cutter blades
- Maximum agitation with the optional discharge nozzle
- Remote oil lines to the gearbox and bearings for easy access
- Wide range for depths from 2meter to 5meter, with 7.5kw motor
- A combined mixer and pump to do two jobs in one machine minimising investment and maximising versatility
- Uses a standard electric motor with simple V belt drive for simple fast easy maintenance
