The Philippines' Leading Farm Machinery Supplier

NEWSLETTER

ISSUE: DECEMBER 2021

Merry Christmas
AND HAPPY NEW YEAR

TRACTORCO wishes everyone especially its valued clients a Merry Christmas and Prosperous New Year. Even though the COVID 19 still lingered up until 2021 Filipinos can still find ways to be happy amidst chaos. TRACTORCO is grateful to its old and new clients for their continuous support.

TRACTORCO Christmas video presents "A Farmer's Wish"

Video link:

<https://youtu.be/kRZas8PUvFQ>

The story is all about Cesar who still uses traditional farming method. Since it's almost Christmas time, he wrote a letter to Santa wishing for his own Tractor to help him in the farm. However, he left the letter on the table and his daughter Elise found it and mailed it to Santa. The desire of Elise to help his father touched both Santa and her sister, May. Santa went to TRACTORCO-The Philippine's Leading Farm Machinery Supplier to look for a tractor. He was shown different brands of tractors, reconditioned and brand new. Santa fell in love with the LS Plus 100 Tractor, a brand-new tractor from Brazil. He knows it is perfect for the farmer. Cesar and his family were delighted to see the tractor delivered to them on Christmas Day. They were grateful for the new blessing. Cesar knew he will no longer have a hard time farming using carabao and *arado*. **This video shows the importance of tractors and farm machinery to every Farmer.**

FEATURE

Tractors

LS TRACTOR marked 5 years in the Philippines since TRACTORCO imported it from Brazil, though the LS brand is already well known in the world for 19 years.

LS TRACTOR is now setting new standards in the Philippines with its **FUEL EFFICIENCY AND AS A RELIABLE TRACTOR** on the field.

The **LS tractor** consumes **7% less fuel** than other leading brands and has an independent PTO at 540, 750, and 1000RPM. One of its advantages over other brands is the **super creeper gearbox** which can run as slowly as **250 meters per hour**. It also has a forward and reverse shuttle lever which is ideal for loading. Separate cylinder heads make servicing easier.

Quick after sales support around the Philippines with readily available parts in Tractorco

MINOS AGRI PNUEMATIC 4 ROWS CORN PLANTER

COMBINE WHOLE COB CORN HARVESTER

Video link: <https://youtu.be/l4mo9gVmWvA>

The **COMBINE 800** was designed for harvesting whole corn cobs with a maximum humidity of 25%. It de-husks, separates the trash, cleans the grains and delivers the clean grain either into sacks or as bulk for transport. It is low in operating costs and time saving compared to manual harvesting.

COLOMBO RCM-11 WHOLE GRAIN HARVESTER

Production capacity is 30 up to 35 bags per hour.

MEET TRACTORCO' S YOUNGEST CERTIFIED WELDER

REYMART ABONIAWAN

TRACTORCO is the Philippines' Leading Farm Machinery Supplier and no one can argue with that. Why? TRACTORCO has skilled employees who were trained to become the best in their chosen career. **Reymart Aboniawan** a 22-year-old Certified Welder is one of the best examples. He graduated Senior Highschool at Caduhaan National Highschool in Cadiz City and passed the TESDA (Technological Enhancement and Skills Development Assessment) assessment for Welding. After his graduation he applied to become a professional welder at TRACTORCO at the age of 18. He is now working in the company for 3 years and has proven his skills in so many ways. He has been part of every successful reconditioning of the Tractors at TRACTORCO. This young lad is a native of Cadiz City and loves to spend his free time playing basketball or driving motorcycle but most of all he likes to observe other people flaunting their welding skills on Youtube. Reymart happens to be the youngest employee but he believes that age is just a number and not a hindrance to become the best in the field. He also wants to let the younger generation know how important the K to 12 of the Department of Education is. He is a product of the said program and he is grateful to have been part of it.

TRACTORCO FAMILY IS NOW 100% VACCINATED!

TRACTORCO is happy to announce that 100% of its employees are now vaccinated. Last July 28, 2021 the office staff got their Janssen shots, a vaccine created by Johnson & Johnson. Tractorco stand with every Filipino who wanted to make the country free from COVID 19. We struggled for the past 2 years fighting against the deadly virus that has put our lives at risk. To be vaccinated means you are taking part in making the world a better place to live again. We in Tractorco are not only doing this for ourselves or for the company but we did it as part of our social responsibility to our community. We are committed and determined to help everyone cross this crisis. This yuletide season there is nothing more we could ask for but a Healthier, Happier and Safer 2022.

MASSEY FERGUSON 8130 150HP 4WD TRACTOR
